

# Avery Dennison Application Workshops

Extend your skills and get inspired.

Our advanced course has been designed to ensure you understand the variables involved in vehicle application and have the confidence to provide your customers with a sound, professional and great-looking product.

We start with an overview of the key considerations and techniques for application on difficult surfaces, moving on to spend the rest of the day completing practical applications to vehicles. This workshop is predominantly hands-on and will provide you with the knowledge required to help make the application process quick and easy, while pointing out the vital areas of importance in this specialised field.

Register now and gain the knowledge and practical skills you need to improve efficiency and profit. Whether you're a manager, an applicator, an apprentice or in graphics production – you'll find our Advanced Vehicle Application workshop a crucial requirement for working in the continually transforming sign and display industry.

## WHY SHOULD YOU ATTEND?

- > Expand on your application skills, or if you're an experienced installer, sharpen your skills
