distance**

*Wait here until the next
circle is available.
1 customer per spot.*

Thank you!

During a time when social distancing is crucial for saving lives, Avery Dennison recognises the signage and marking needs for businesses.

From floor graphics that help maintain safe distances between people, to health and safety warning signs, and graphics that communicate vital information to the public, we are committed to supplying these important materials.

Cleaning Recommendations

Cleaning of PVC Laminates

Avery Dennison films should not be cleaned or washed within the first 48 hours after application.

For cleaning of exterior floor graphics, the high-pressure equipment should not exceed 1200 psi (80 bars or 84 kg/cm²). A minimum distance of 30cm should be maintained to prevent decal edge lift.

Wear appropriate PPE (Personal Protective Equipment). For more information, please check your local government health guidelines.

These cleaning products are recommended for use

Detergent / solutions: ie dishwashing liquids	✓
Detergent disinfection / disinfectants (chlorine-based) / antibacterial surface wipes - sprays	✓
Bleach (must be diluted following the instructions Of the manufacturer)	✓

These cleaning products are not recommended for use

Solvents	✗
Powder or liquid abrasive cleaners	✗
Scourers	✗
Harsh chemicals e.g. acids, alkali solutions	✗

Frequently touched surfaces

- Door handles, bedrails, tabletops, light switches
- Should be frequently, mechanically cleaned
 - Detergent solution (as per manufacturer's instructions) or detergent/disinfectant wipes can be used (so long as mechanical cleaning is achieved)

Minimally touched surfaces

- Floors, ceilings, walls, blinds
- Detergent solution/wipes (as per manufacturer's instructions) are adequate for cleaning general surfaces and non-patient care areas
 - Damp mopping is preferable to dry mopping
 - Walls and blind should be cleaned when visibly dusty or soiled
 - Window curtains should be regularly changed in addition to be cleaned when soiled
 - Sinks and basins should be cleaned on a regular basis

About Avery Dennison

Avery Dennison is a global materials science and manufacturing company specializing in the design and manufacture of a wide variety of labeling and functional materials. Our products are used in nearly every major industry.

Our Competitive Advantages

- Global scale; 180+ operating locations
- Recognized industry leader with a global footprint, including a strong presence in emerging markets
- Materials science capabilities focused on pressure-sensitive adhesives
- R&D and innovation breakthroughs that anticipate and meet market needs
- Innovative process technology
- Operational and commercial excellence

Why Avery Dennison Graphics?

- Self-adhesive material global experts for creative and technical support
- Global network of trained and certified application partners for compliance and conversion
- Unmatched color matching program to fulfill corporate identify requirements
- Backed by Integrated Warranty Systems for performance assurance

Why Mactac?

- Proven, trusted solutions. European leader, with over 50 years experience
- Supported by a strong network, Mactac pressure-sensitive adhesive products come in an extensive range of digital print and signage solutions
